PROFESSIONAL AMBIENCE

WE TAKE PRIDE IN PARTNERING WITH INTERNATIONALLY RENOWNED SUPPLIERS WHO SHARE OUR PASSION FOR QUALITY AND AUTHENTICITY.

Our essences are carefully selected from regions renowned for their excellence in the production of high quality fragrances.

We have been working for years in close collaboration with suppliers in Switzerland, the cradle of perfection in the production of fragrances, and in Grasse, the perfume capital of the world and, of course, with Spanish suppliers.

This partnership with experts allows us to ensure that every fragrance we create is a truly exceptional olfactory experience.

IN OUR SECTOR WE ARE THE COMPANY WITH MOST EXTENSIVE NUMBER OF INDUSTRIAL MODELS REGISTERED, A REFLECTION OF OUR ONGOING COMMITMENT TO INNOVATION AND EXCELLENCE

TURBO AEROSOL AIR FRESHENER

ONE SHOT, GREAT INTENSITY

DISCOVER THE POWER OF THE TURBO AIR FRESHENER

Our aerosols stand out for their high concentration of scent, far surpassing similar products available on the market. With less quantity we achieve a wider coverage, ensuring that the fragrance lingers longer. We offer 100ml and 270ml refills for our programmable dispensers and a 750ml Turbo format for manual application.

VARIETY AND CUSTOMISATION

With more than 200 options in our scent menu, you will have a wide range to choose from. In addition, we offer the possibility to manufacture any customised scent upon request.

HIGH COVERAGE AND DURABILITY

Our aerosols offer coverage ranging from 30 m² to 50 m². The Turbo format, in particular, has a fixation time of more than 24 hours in closed rooms.

VERSATILITY AND PROGRAMMABILITY

Our aerosols are highly versatile and can be programmed by days, hours and intensity for 100ml and 270ml formats with automatic dispensing equipment. A simple but effective system that cannot be missing in the professional's arsenal.

OPTIMISED FOR PROFESSIONAL USE

Thanks to the high concentration of pure scent, our aerosol sprays are ideal for areas with a large number of people.

Whether programmable or manually operated, they are the perfect ally to ensure an effective, economical and environment-friendly ambience in any room.

PREMIUM NEBULISATION

WITHOUT AEROSOLS
AND ALCOHOLS, THIS METHOD
STANDS OUT FOR ITS VERSATILITY
AND WIDE RANGE

By transforming essential oils into a soft mist, our nebulisation system has become one of the most requested by our customers. We offer the possibility of connecting certain equipment to air conditioning systems, we can scent spaces of more than 5100 m³ with a single device.

THE EXQUISITENESS OF OUR AROMAS IS ELEVATED TO NEW HEIGHTS
IN THIS PERFECT FUSION OF TECHNOLOGY, DESIGN AND FUNCTIONALITY.

All our devices are fully programmable and designed to adapt to the specific needs of each client.

They offer the possibility of dispersing nanoparticles of essential oils in the environment, without using aerosols or alcohols. They can be programmed via WiFi, Bluetooth or manually, allowing you to select the days of the week, times and desired diffusion intensities. With the capacity to cover areas from 20m³ up to 5100m³ per device, no space is left without fragrance.

Our cold micro-mist technology opens up a new horizon in air freshening, allowing sophisticated, harmonious fragrances to create a captivating atmosphere. Our new devices, programmable via Bluetooth/WiFi technology, integrate seamlessly into any space, adding a touch of style to existing decor.

MALODORS ELIMINATION

TRANSFORMANDO ESPACIOS,
NEUTRALIZANDO MALOS OLORES

Odours are a complex challenge. They arise when various substances are broken down by microbes in organic matter, whether in water or solid waste. Our mission is to address these problems in an effective and environmentally friendly way.

How does AmbiNature eliminate bad odours? Our unique formulas not only mask, but destroy the odour-causing molecules, creating a sanitised environment free of unpleasant odours.

IMPORTANCE OF ODOUR NEUTRALISATION

Odour neutralisation is essential for a number of reasons:

Improved Air Quality: An environment free of unpleasant odours improves air quality, which can have significant benefits for health and well-being.

Customer Experience: In commercial environments, such as restaurants or shops, odour neutralisation contributes to a more pleasant experience for customers and can influence purchasing decisions.

Well-being at Home: At home, odour neutralisation contributes to a more comfortable and welcoming environment, which improves quality of life.

Prevention of Recurrence: Addressing the underlying cause of odours, rather than simply covering them up, prevents recurrence.

HIGHER EFFICIENCY WITH LESS PRODUCT

AmbiNature SUPERCONCENTRADOS are the perfect embodiment of the saying 'less is more'. They provide superior cleaning with less product, thanks to their concentrated formula. These products have the ability to penetrate and break down dirt, grease, and stains more effectively than traditional cleaning products.

You use less quantity, save more, and achieve a cleaner and fresher environment. They can be applied in very low doses, ranging from 10 to 25 ml of concentrate per bucket of water (approximately 15L of water).
